9. Service Availability and Access Duration Disclaimer

Disclaimer Commitment to Continued Service

At UnrealPhotos.io, we are committed to maintaining and improving the platform over the long term. Our goal is to continuously evolve the service for all our users, including those on Lifetime Access and Yearly Subscription plans.

We take our responsibility seriously and will make every reasonable effort to ensure the ongoing operation of the service for as long as it is viable to do so.

Guaranteed Minimum Access

By purchasing either a Lifetime Access or Yearly Subscription plan, you are guaranteed access to the platform and its core features for a minimum period of three (3) months from the date of purchase.

During this time, we will work to keep the service running smoothly. Please note that occasional maintenance or short-term technical issues may occur and do not affect this commitment.

Unlimited Access Limitations

Unlimited access refers to access for the operational lifetime of the UnrealPhotos.io platform—not your personal lifetime. While we aim to support the service for many years, we cannot guarantee perpetual availability.

In the unlikely event that UnrealPhotos.io must be discontinued (e.g., due to business closure, legal obligations, or other unforeseen circumstances), access to the service—including lifetime plans—may be discontinued. We do not offer refunds or compensation in such cases, unless required by law.

Feature and Service Adjustments

We reserve the right to change, limit, or remove certain features over time as part of the normal development and improvement of the platform. These changes do not entitle users to refunds, provided the core functionality of the service remains available during the guaranteed minimum access period.

Fair Use Policy for Unlimited and Lifetime Plans

UnrealPhotos.io offers Unlimited, Lifetime, and certain subscription plans subject to a **fair use policy** to ensure reliable service and equal access for all users.

Usage Limit

All Unlimited, Lifetime, and Subscription plans are subject to a **maximum fair use limit of 30,000 credits per rolling 12-month period**, regardless of plan type or payment structure.

Excessive Usage

If usage significantly exceeds fair use levels—whether over a short period (e.g., within 3 or 6 months) or over the annual limit—we reserve the right to:

- Temporarily pause or throttle account access
- Limit further usage until the applicable period resets
- Take other reasonable measures to protect platform stability

Account Pausing

Any pause applied under this policy is temporary and does not constitute account termination. User content and data will remain intact and accessible once access is restored.

No Refunds

Enforcement of this Fair Use Policy does not entitle users to refunds, compensation, or service extensions, including for Unlimited or Lifetime plans, unless required by law.

Abuse Prevention

Automated, abusive, or non-human usage patterns may result in immediate suspension or termination under these Terms.
